

## Places to Join in North America

Dear person who submits places to join several times a week. You submit places that do not exist (you know that). I do not have your mail address, so I cannot address you directly. I am the person making the lists. I am from Europe. Until now my strategy was to ignore what you submitted. This does not seem to stop you. I kindly request you not to submit any nonsense places anymore. Or tell me what it is you want. Attention? Please sing Gayatri Mantra and contact someone for help or a listening ear or a hug or to talk to.  
Kind regards
